PROFILE

UI/UX designer with 14+ years across web, mobile, enterprise dashboards and embedded device displays, currently Principal Design Engineer at Jabil in Penang. I work with firmware, hardware and software teams from first requirement to development handoff, and I stay close to the build and to the support issues that follow. Contributed to 100+ projects for brands in manufacturing, banking, insurance and logistics.

EXPERIENCE

Principal Design Engineer Oct 2018 – Present

Jabil Circuit Sdn. Bhd., Penang, Malaysia

- Lead UX/UI design for web applications, enterprise dashboards, mobile apps and embedded product interfaces, from concept to development handoff.
- Improve live products iteratively using user research, usage data and feedback sessions.
- Work with firmware and hardware teams to fit interfaces to device displays and embedded platforms.
- Run design reviews, usability testing and quality checks before release.
- Join business development and customer conversations early to define the problem, the use environment and the requirements.
- Created and maintain the design system, UI/UX standards and documentation across product lines; mentor junior designers and train local team members.

Senior UI/UX Designer (Consultant) Aug 2017 – Sep 2018

Citicorp Services India Ltd. (via Pixint Graphics Pvt. Ltd.), Pune, India

- Turned customer briefs into banking interfaces, including a compliance monitoring web application, presenting high-fidelity designs to customers after internal review of wireframes and low-fidelity prototypes.
- Designed data-centric dashboards to support decision-making.
- Built personas and user scenarios from interviews, traffic analysis and secondary research.
- Refined prototypes with product owners in an iterative agile cycle.

UI Designer Aug 2015 – Jul 2017

Mobile Programming LLC, Gurugram, India

- Designed 30+ web and mobile apps for global brands including SAP, Toyota and Amgen.
- Focused on UX flows for banking, logistics and insurance products.
- Created personas, scenarios, low-fidelity prototypes and high-fidelity mockups; led customer design reviews.

Web and UI/UX Designer Sep 2014 – Aug 2015

Technovature Software Solutions, Bengaluru, India

- Owned website and app UX/UI from concept to delivery; created brand guidelines and product identity assets.
- Produced wireframes, storyboards, user flows and site maps, and presented them to executive stakeholders.

Web Designer and Developer Nov 2012 – Apr 2014

Gradient Softech Pvt. Ltd., Kota, India

- Designed and built page layouts in HTML, CSS and JavaScript; maintained live websites and resolved code issues.

Web Designer and Faculty Aug 2010 – Dec 2011

Nis Creative Info Pvt. Ltd., Bhavnagar, India

- Designed websites, retouched images, and taught web design to students.

SELECTED PERSONAL PROJECTS

Ishraq Personal project, 2026, not published

Prayer times, Hijri calendar and Quran reader app for iOS and Android. Product and design lead: Figma design system (tokens, components, WCAG AA contrast audit) and screens; Hijri month starts checked against JAKIM's published dates.

Makna Personal project, 2026, not published

Live conversation translation app for iOS that listens continuously instead of using push-to-talk. Product and design lead: 19 screens in light and dark, a design system and a click-through prototype in Figma.

Handasa Personal research case study, 2026

Researched why beginners quit learning to code from public forum threads, and used the findings to drop my own product brief. No users and no outcome metrics are claimed.

SKILLS
